EXPERIENCE

Software Developer

Team geek solutions pvt ltd, Pune

Oct 2021 - Present - 2.5 years, Remote

1. *Evaluation platform for candidate screening*

- Developed and managed **component library** with **Storybook** for essential components, ensuring code **standardization** and aiding **interns** in onboarding.
- Implemented an **embedded feature** enabling users to **preview URLs** with a refresh and new tab options.
- Leveraged **AWS services**, including API Gateway and Lambda functions, to streamline backend and frontend interactions.
- **Payment** integration using cashfree payments.
- Worked on the development and maintenance of a dynamic **micro-frontend** codebase.

2. *Business Support Solution software for telecom clients*

- Collaborated with senior developers to do cleanups using sonar issues and **congnitive complexity reduction** for improved performance by **20%** and maintainability.
- Played a key role in project management, actively participating in **Jira Agile board scrums**, resolving tickets, and ensuring seamless project progress.

Software Development Intern

Team geek solutions pvt ltd, Pune

Aug 2021 - Oct 2021 - 3 months, Remote

- Acquired **hands-on experience**, taking ownership to update and create repository from scratch with required packages and modules.
- Worked on a **feature from scratch** where coaches can plan diet and workout of customers using drag and drop.

Skills & Tools

React, JavaScript, **MUI**, NextJs, AWS Lambda + AWS API Gateway, TypeScript, **Redux**, Webpack, Vite
